

We celebrate National Public Works Week to energize and educate the public on the importance of the contribution of public works to our daily lives; planning, building, managing and operating the heart of our local communities and building the quality of life.

"Because of Public Works..." is the theme for this year. We have clean water, safe streets and neighborhoods, efficient traffic and safe clean communities "Because of Public Works..."

*Thank you to our  
Public Works Employees.*

May 21, 2014

Dear Friend:

Thank you for joining us for yet another National Public Works Week. It is truly fitting to have representatives from the community, different city departments and various government officials here today because public works is a true collaboration among all of these groups.

The Department of Public Works is the engine that makes the City go. We come across the hard work of the DPW when we turn on our faucet and drink clean water, place our rubbish and recycling curbside and have it picked up while we are at work, and as we drive down City streets or stroll along City sidewalks.

It can be easy to overlook the work done by members of the DPW simply because we take it for granted that these services will be provided without interruption. The truth is that countless hours are spent maintaining and enhancing these public assets, and we have a professional, passionate staff that takes seriously their obligations as public servants.

National Public Works Week allows us all an opportunity to publicly affirm our gratitude for the reliable service we receive from these men and women each and every day of the year.

Sincerely,

Thomas P. Koch, Mayor

May 21, 2014

Dear Friend:

Welcome to our celebration of National Public Works Week. Special thanks to Mayor Koch, City Councillors, the NPWW Committee, City Departments, Quincy Public Schools Superintendent Dr. DeCristofaro, his staff, teachers and students, applicants for Public Area Improvement Grants, exhibitors and sponsors whose efforts have made this celebration possible.

Public Works infrastructure facilities and services are of vital importance to the health, safety and well-being of the citizens of Quincy. These necessary facilities and services could not be provided without the dedicated efforts of our employees. It is in the public interest for all of our citizens and our Quincy Public School students to learn of the public works needs and programs of our city and it is important as a community that we recognize the substantial contributions which our employees make each and every day to the quality of life of the people of Quincy.

Schools making banners, students writing essays, families participating in a Bicycle/Pedestrian Safety Rodeo, parents, school officials and civic groups applying for DPW Grants to improve public areas, are an integral part of our celebration.

Thank you for honoring our employees.

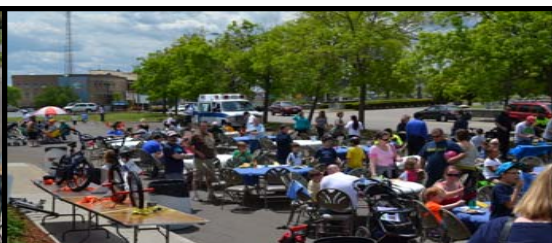

Very truly yours,

Daniel G. Raymondi  
Commissioner of Public works

## National Public Works Week

It is an honor to have so many of our Quincy Public Schools students and staff participating in the events celebrating National Public Works Week. Quincy Public Schools takes pride in providing students with experiences outside the four walls of our classrooms, particularly those that emphasize connections to the Quincy community. City of Quincy Public Works Department staff members are an integral part of the School-Community Partnership; their regular interactions with our schools including snowplowing and sanding each winter, maintaining signage and crosswalks to ensure student safety, recycling, and special initiatives, such as the recent Beautification Grants opportunity.

Leading up to National Public Works Week, our elementary schools are taking part in several special events, including a banner design contest, an essay contest, and a field trip to the Public Works facility. These special events have made our students and their families more aware of the significance of the Public Works Department in their day-to-day lives and given them an appreciation of the dedicated Public Works Department staff members and their contributions to the City of Quincy. Thank you!

*Richard DeCristofaro*

Richard DeCristofaro, Ed.D.  
Superintendent

## About National Public Works Week

National Public Works Week (NPWW) is a celebration of the men and women in Quincy who provide and maintain the infrastructure and services collectively known as the DPW. NPWW calls attention to the importance of public works in community life. The Week seeks to enhance the prestige of the often-unsung heroes of our society-the professionals who serve the public good every day with quiet dedication. The occasion is marked with citations from Mayor Thomas P. Koch and the Superintendent of Schools Richard DeCristofaro and Commissioner of Public Works Daniel G. Raymondi .

Some special highlights of our celebration include an Essay Contest held in the fourth grade level of the Quincy Public Schools, a Banner Contest in the fifth grade level, a public area Beautification Contest, Bicycle/Pedestrian Safety Rodeo, awards and recognition and an Open House filled with exhibitors and public works personnel.

Through National Public Works Week we seek to raise the public's awareness of public works issues and to increase confidence in public works employees who are dedicated to improving the quality of life for present and future generations.
